No. 26

CZAR GRANTS AN AUDIENCE.

Conference Between the Emperor and Representatives of the Strikers—Minister of the Interior Resigns—Poland Still in Ferment.

London, Feb. 2.—Favorable results are expected to follow an audience given to-day by Emperor Nicholas at Tzarko-Selo to thirty-two men representing the leading industrial establishments of St. Petersburg. In addition to paternal admonitions bestowed upon the workmen, \$25,000 has been given by the Emperor, the Empress, and the Dowager Empress for the relief of the families of those who were killed or badly wounded in the affair of January 22nd. The manufacturers of the city have made concessions to the strikers and contributed to the relief fund. The situation in Poland

and the other provinces continues strained and strikes are reported from Irkutsk and several other Siberian towns.

The resignation of Prince Sviatopolk-Mirsky from the Ministry of the Interior has been accomplished in such a way as to indicate that the Emperor is satisfied to be rid of a Minister of the Prince's avowed liberal tendencies. The forecast that Bouligan will be named for the position of Minister of the Interior is construed as indicating a recognition of Grand Duke Sergius' predominating influence with his nephew the Emperor.

AUDITOR'S REPORT

FOR THE FISCAL YEAR

Financial Affairs of the Edmonton Protestant Public School District During 1904.

Following is the report of A. Tomlinson, city auditor, of the affairs of the Edmonton Protestant Public School District for the year ending December 31, 1904, which was presented to the Board at a meeting early this week.

The Chairman and Trustees Edmonton Protestant Public School District.

Mr. Chairman and Gentlemen:

Herewith I beg to hand you statements for the fiscal year ending December 31st, 1904, which I think will accurately and explicitly explain the financial status of the district.

It will be seen by the statement of Revenues and Disbursements that there has been received \$23522.04, to which must be added the Government grant due in December last but not yet paid, estimated at \$2000.00, making in all a total Revenue of \$25522.04.

There was expended for operating expenses \$20392.33 and a capital expenditure of \$3144.61 which amount augments the capital balance, having been expended in providing assets of a permanent nature, leaving as a credit to the ensuing year a revenue balance of \$1985.10 which I think is a very satisfactory result.

I have also appended a statement of expenditures made under Bye-Law 4 which provides for the borrowing of the sum of \$44,000 on the debentures of the district, to be expended in the construction of a brick school house and other improvements. The said debentures have been hypothecated to the Imperial Bank of Canada and the sum of \$22800.00 obtained thereon, of which amount there has been expended \$22613.79, leaving a balance of \$186.21 standing to the credit of this special fund at the Bank.

It will be noticed I have constructed the balance sheet in two sections. The first setting forth the current assets, and liabilities, and secondly the capital assets and liabilities, which assets are of a permanent character and have been paid for out of the yearly revenue or by the sale of debentures which are repaid by yearly installments, the capital account having an increased value by reducing the debenture liability. The capital account

BULLETIN CO. (Ltd.)

It would seem that we are now in for

Three Months
of Steady Cold
Weather

If it was to last only a few days or weeks, then any kind of a Heating Stove would tide you through, but for a long spell of cold weather where you need your house warm night and day there is no Stove on the market so well adapted for heating as the

"Riverside Oak"

It will heat two rooms at once. It has a hot air pipe attachment and it will take the cold air from the floor, heat and distribute it into any room the Hot Air Pipe is carried into, without burning any more fuel. It burns equally well Coal or Wood and the price is very low considering its efficiency and economy.

Ross Bros. Limited have handled this Stove for a long time and can conscientiously recommend it as sure to please. Have you seen the New Steel

Monarch Range

guaranteed all Steel and Malleable Iron. The top of this Range is ground to a finish, just the same as a Fry Pan or Kettle and can be used for Frying and Toasting just the same as a French Top Range. The Ovens are the most uniform of any Ranges made. The water fronts are so modelled that they will heat twice the water of an ordinary Range. It burns either Wood or Coal equally well and will heat up quickly and on a less quantity of fuel than any other range made.

See the One in our Window

they are beauties and the price is not so high as you would expect to pay for so good an article. We keep everything in Kitchen Utensils and truly think we can give you better value than any other House in the West.

Ross Bros.
Ltd.

AUDITOR'S REPORT.
Continued from page two.

shows a balance of \$19312.05 of assets over liabilities.

I find the cash book entries correct and vouchers appearing for all expenditures. The buildings while carrying a book value of \$40500.00 are insured for \$30900.00 and the furniture, apparatus, library, etc., etc., together, are valued at \$6400.00 and carry \$3200.00.

January 18th, 1905.		

have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles, or fraction, will be sufficient. Rental, \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the grant of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$10 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river, and hill claims shall not exceed 250 feet in length measured on the base line or in general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other place claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notice. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim shall hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claimer only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work the claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned, and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted.

A claim of \$150 for each mile of frontage, or royalty at the rate of two and one-half per cent of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and at least \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unoccupied land for agricultural and building purposes.

Petroleum—All unappropriated Dominion lands in Manitoba, the Northwest Territories, and within the Yukon Territory are open to occupancy for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 440 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery in an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to a royalty of one-half per cent, which may be specified by order-in-council.

Department of Interior, Ottawa, September, 1903.

JAMES A. SMART, Deputy Minister of the Interior.

2012 05

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Pioneer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or bench, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who

American Tribute to England.
Bulletin Special.

Washington, Feb. 2.—An extraordinary tribute to England's command of the seas was paid in the Senate to-day by a senator who claimed her supremacy was untouched, and that her merchant navy will never be equalled by that of the United States.

C. & E. Bill Introduced.

Winnipeg, Feb. 2.—W. Scott, M.P., introduced the Calgary & Edmonton railway bill, which was read a first time. The bill allows the company to issue debentures to construct a high level bridge across the Saskatchewan at Edmonton.

Easy Passes through the Mountains.
Bulletin Special.

Victoria, Feb. 2.—A. S. Going, G. T. P., surveyor, says there are seven good passes through the mountains between Yellow Head and Peace River. In these passes construction would not be difficult.

Dominion Fair for E. C.

Bulletin Special.

Ottawa, Jan. 30th.—The Dominion Government has decided to give a grant of \$50,000 to the Dominion exhibition to be held during the summer at New Westminster, B. C. It was arranged some time ago to have an off year and not to give any grant until 1906, but on account of pressure from British Columbia, the Government has agreed to give it this year. There will be the same conditions as in Toronto and Winnipeg, which required that part of the grant will have to be expended in paying freight on exhibits from other provinces.

New Bills Introduced

Bulletin Special.

Ottawa, Jan. 31st.—Walter Scott, M. P., introduced the bill respecting the Calgary, Red Deer and Battleford railway and also the Moose Jaw and Edmonton Railway bill.

Briefs.

Quebec, Jan. 2nd.—Premier Parent emphatically denies the absurd rumor that he will resign Friday.

Montreal, Feb. 2nd.—The Salvation Army have chartered the steamer Vancouver which sails for Canada April the 25th with 1200 emigrants aboard in charge of Salvation Army officers. The party are all farm laborers and domestics.

Montreal, Feb. 2nd.—Galliberts tannery was gutted by fire. Two employees were burned to death. One of them was a Russian deserter having only arrived in the country a few days ago. He wore the uniform of the Russian saddlery.

Montreal, Feb. 2nd.—The liabilities, \$600,000, of A. Marceau now in Kingston Penitentiary will fall on the Bank of Montreal according to a judgment given on Wednesday.

Montreal, Feb. 2nd.—W. L. Goad was elected president of the Board of Trade and F. H. Mathewson formerly of Winnipeg vice president.

Winnipeg, Feb. 2nd.—Carievale defeated Oxbow 9 to 5 in hockey. Macmanay of Oxbow had his foot badly frozen during the game. The intermediates of Carberry beat Brandon 4 to 2.

Larne Lake, Feb. 2nd.—Bellefonte of Winnipeg came in second in the half mile skating race.

The Manitoba House adjourned yesterday amid a flourish of trumpets a Premier Rob is leaving for Cuba, to stay on a holiday.

Tenders for a Permit to cut
Timber on School Lands in
the District of Alberta.

SEALED TENDERS addressed to the undersigned and marked on the envelope "Tenders for Timber Berts No. 26 School Lands", will be received at this Department until noon on Monday, the 27th day of February, 1905, for a permit to cut timber on Perch 26, comprising School Sections 11 and 29, in Township 47, Range 2, West of the Fifth Principal Meridian.

The regulations under which a permit will be issued, also printed form of tender, may be obtained at this Department or at the office of the Crown Timber Agent at Edmonton.

Each tender must be accompanied by an accepted cheque on a chartered bank in favor of the Deputy Minister of the Interior for the amount of the bonus which the applicant is prepared to pay for a permit.

It will be necessary for the person whose tender is accepted to obtain a permit within sixty days from the 27th day of February, 1905, and to pay twenty per cent of the dues on the timber to be cut under such permit, otherwise the berth will be cancelled.

No tender by telegraph will be entertained.

Rental or license rates to be charged if the berth is not operated continuously.

PERLEY G. KEYS, Secretary.

PREPARING FOR THE SHOW.

The arrangements are rapidly nearing completion for the exhibition of the Poultry and Pet Stock to be held by the Alberta Poultry and Pet Stock Association in Robertson Hall, Edmonton, on Feb. 15th and 16th. Entries have already begun to come in from points down the line and enquiries both local and distant are numerous. The prize lists have been printed and will be mailed by the Secretary or on request of breeders.

Separate classes for poultry, pigeons, canaries, dogs, cats, rabbits, etc., and non-thoroughbred poultry class open to farmers only. The dressed poultry, (all varieties) all form a special feature and one in which special interest will be taken.

Exhibition coops have been provided by the Association for the poultry.

Mr. C. R. Cottrelle, of Milton, Ont., will act as poultry judge. He is an experienced poultryman and qualified to give general information. He will be in attendance each afternoon in the exhibition hall to give instruction and practical information to enquirers on poultry subjects. Dr. Wm. Elliott of the Department of Agriculture, Ottawa, also expects to be in attendance at the show.

Admirers of the canine family will be surprised and pleased at the number of fine dogs that (according to present indications) will be "on the bench." Mr. James Turnbull, city will award the red, blue and yellow tickets for this class.

The Poultrymen's Convention to be held in connection with the above exhibition on the 16th is one that all interested in breeding and raising of fowls for either business or fancy purposes should attend. Mr. Cottrelle who is a talented speaker will address the convention as well also Dr. Elliott, of Regina, C. de W. McDonald, Esq., and others. Subjects that will be dealt with are "Poultry for Profit," "Feeding," "Rearing," "Marketing," "Thoroughbred fowls vs. non-thoroughbred," "Poultry houses for Alberta," etc.

The membership tickets to the Association have been issued and can be obtained from the following officers: Messrs. J. J. Mills, Jas. A. Stovel, R. J. Matson and the secretary W. A. Eise, Edmonton and V. T. Richards and E. Harrison of Stratheona. The membership fee is \$1.00 per annum which includes admittance to the exhibition and all conventions held by the Association.

SADDLE LAKE.

Mr. Sam Hunter is just recovering from a severe attack of Pneumonia.

Dr. Aylen passed up on his way to Fort Saskatchewan. All at present quarantined will be released on Jan. 28th, if no further case develop.

That there is some talk of a telegraph line to Lac la Biche from Saddle Lake is causing quite a stir among the Boyn settlers. A large amount of grain will be done with the expectation of an office at Boynes.

Mr. Thos. McCollough and Tom passed up. They have secured some lumber for their new house from Mr. Johnston at Desjardins.

The Boynes mail carrier lost his way last week and at noon found himself again at Saddle Lake. He arrived at his destination last Thursday evening.

Mr. Aug. Llewellyn has secured forty tons of Hudson Bay Co. freight for Lac la Biche.

Rev. R. B. Steinbauer H. A. will rejoice on the 8th in the possession of his assets once free from Smallpox which is not among the luxuries of his life.

Mrs. Patty has been quite ill but has recovered.

Plans are under way for the erection of a school house at Floating Stone.

Mr. Thos. McCollough and Mr. Chas. Green treat start next week for Edmonton.

January 25, 1905.

CALGARY DELEGATION PROPOSED.

At a meeting of the Calgary Board of Trade on Tuesday afternoon it was decided that a delegation should be sent to Ottawa to protest against the effect that seems to be made to have Edmonton located as the temporary capital of the western province."

SURVEYOR IN FROM
THE NORTH.

Mr. H. Selby, D.L.S., reached the city yesterday from the Peace River country, where he has been engaged during the past year on survey work for the Dominion Government. Mr. Selby and party left Edmonton on March 3rd last for the north. The remaining members of the party are now on the road to the city, and will probably be in in a few days.

The district in which the party were engaged is about seventy-five miles north of Fort Dunvegan, on the Peace River. The country had been burned over some time since, and work was very difficult. Fodder for the horses could only be obtained at Lesser Slave Lake and points on the Peace River, and these difficulties were in part the reason for work being temporarily suspended.

Mr. Selby goes east in a few days for a month, returning to Edmonton in March to take up the work again. Mr. St. Cyr's party, who are working near Lesser Slave Lake, will remain out during the winter.

MOCK PARLIAMENT.

Contributed.

On Friday evening, Jan. 3rd, at 8 p.m. the Alberta College Literary will take the form of a mock Parliament. About twenty-five are taking part and hope to make it successful and interesting. It is the first government in our new province of Alberta after we have been granted Provincial Autonomy. A characteristic feature of this new assembly is that ladies take part and help to wield the sceptre of power.

All who are interested are invited to come to this as to all the other regular meeting of our Literary. The only limitation is the seating capacity of our assembly room which holds about one-hundred. While we should be pleased to see it well filled we would be very sorry to have anyone come and be unable to get a seat; yet we will do our best. Those who come come early. All are welcome.

TROPHIES FOR COMPETITION.

When the fate of the Pederson cup is settled for the season there remain three splendid trophies open for competition: The Stephens cup, carrying the Championship of Alberta, The Second Shield, the emblem of the Territorial Championship and the new Alberta Brewing & Malting Co. cup. The custodians of this cup are Messrs. A. Brown, P. Strong and H. W. Campbell and the rules the same as for the Stephens cup.

All games in these competitions must be played on home ice. Two games out of three are required.

WHAT COSTS
MOST

WHOLE lot of people fancy the cigar business is a snap!

They figure out that all you need is some cases of tobacco, a few cigar makers, and the name of some stage favorite or prominent man.

The quality of the filler does not interest them at all—the binder is beneath their notice—but the wrapper and the name is all important.

They can sell this kind of cigar at \$55.00 a thousand, give a gold watch into the bargain, and then make a good size profit.

The principal cost of Pharaohs is in tobacco—I buy the best filler in the world—a Cuban leaf—one I select myself from the best of the Manicuragua district, in the Province of Santa Clara—a Connecticut broad leaf as binder, the most expensive in the world—and I import a clear leaf Sumatra from Holland as wrapper.

I secure by this means a superb cigar, a fragrant, even smoker—very palatable—very superior to the ordinary run of cigars.

*J. Bruce Gaynor,
GRANARY, P.Q.*

THIS IS TRULY THE IRON AGE.

Some Pertinent Facts in Regard to Iron and Iron Mining.—The Returns to Shareholders from Iron Properties Greater than from any Other Class of Investment, The Iron Mines of The Edmonton Coal and Iron Mining Company Promise Much to the Owners and to the Prosperity of Edmonton and Northern Alberta

We often hear the expression "the iron age," but few of us realize what this term actually means when applied to the present era, as it often is.

In order to better grasp its meaning, and still further to appreciate to the fullest extent all that it entails, let us look back to the "Iron Age" of past history. In those early times when man was yet in his infancy so far degeneration and enlightenment goes, when life meant a continued struggle for the supremacy of the race, in short, when his best efforts were limited to an extent which it would be impossible for us in our day to imagine, his sole ambition stopped short at the manufacture of a few crude household utensils and weapons of war and the chase. How different it is with us today! Not only are we equipped with cooking utensils and arms of the finest description but, what is still more to the point, we have subjected this all important metal—the greatest of all nature's gifts to her children—to our almost every need. Not only do we use iron and steel which we may call its offspring, for our houses, but we use it for the actual destruction of our largest buildings and it is daily becoming more popular. Again, our bridges, railroads, waterways, subways, docks, shipyards, vessels, in fact all our great modern engineering feats and efforts would fail utterly were it not for the presence and the skilful adoption and use of this wonderful metal, iron.

It would not be too much to state that were we to eliminate the use of iron in its various forms from our present day commodities, not only would the commercial world be suddenly checked but we should gradually and surely drift backward to the starting point; the various branches of trade would have ceased, commercial enterprise would be a thing of the past and civilization would be a mere matter of history. Therefore viewing things from this, the only proper light, the logical conclusion we must arrive at is that this twentieth century is the real iron age, the iron age of the past being merely the embryonic forecast of the world's great future. Such being the case let us turn to the material side of the case and ask ourselves the question "since iron is practically the fundamental basis of our modern civilization and since it is used to such a vast and ever-increasing extent, how is the supply keeping pace with the demand?" Clearly the field is a large one and even the great iron mines now working are not so numerous as to be able to swamp the market at their present output. There is more demand today than there ever was for a good iron mine, and this is especially applicable to certain countries and sections of countries.

Speaking of our own country—this vast Canadæ—with its limitless resources in the form of minerals, timber etc. here we have a young country, a growing country, a land of great prospects and with a vast future. Undismayed by the fogs and mist of uncertainty or incompetence she looks up before us in all her might. With outstretched arms she invites us to share her gifts and her future. Her dowry is an ample one, nor does she withhold it from those who have the wisdom to know her charms. Her veins are of fine gold. Her ornaments are many and precious. Her will is of iron and as surely her will controls her actions, so surely must her iron control her future. With this iron she will build her railroads—the Grand Trunk and the Canadian Northern, albeit in the present vast undertaking being but an earnest of future and still greater possibilities. She most have also bridges, ships, machinery and the thousand and one other necessities which go to build up a large nation—which she will surely one day become. Think of this, to build up a nation! Grasp the stupendous meaning which this implies and ask yourself the question "How are we going to obtain all this iron which is needed?" The answer is simple. Either Canada must import all her iron and by this we include steel, or she must supply her own iron. Would we, knowing that we have fruit in our gardens, go elsewhere to obtain it at a greater cost? It hardly seems feasible. Then let us pluck what we have, and to our health, in other words let us take hold of the vast iron deposits which we know from the best authorities and can see for ourselves we possess. Let us work them, not indiscriminately throwing away money, but with careful consideration and with due regard to location and the probable measure of success which such location promises.

There are those who would say that the average percentage of iron

mines which are paying is small compared to the number of mines upon which large sums of money have been spent. Here again notwithstanding the fact that although the number of failures in iron mines has been far less than that of any other mineral, we find a class of people who rely rather upon their own ideas of what should be, than upon the advice of experts who deal with the things that are. Such is the class who would, after losing money by their own foolish speculations, decry any form of mining who in short impede the march of progress.

It has been said that in order to take an intelligent interest in the affairs of his country every man should study politics. How much more then should he not take an active interest in building up his country by studying its natural resources and assisting to develop them?

It almost devolves upon us as a duty, which we owe to our children and our children's children, this laying of the foundation stones of the future, and this being the age of iron it would seem that in that direction lies the work we have set ourselves to perform.

One naturally asks "where am I to start and how?" We will consider the first part of the query carefully, being guided by cast experience and backed up by statistics, for these are the testimonies exacted from us by nature before we will yield up her stores in trust for future generations. Taking the iron belts on this continent of America we find that they have their defined limits and their directions as truly as the arteries in the human body. For instance if we find the brachial artery near our armpit and run across the arm of our wrist we may safely conclude that it is the same artery, or lead as it would be termed in medical parlance. It is not our design to bewilder the reader or prospective investor with a list of iron mines paying high dividends, nor do we sketch out a Geographical chart of all the iron districts and leads on the American continent, but the following example will serve to show the well nigh infallibility of mining operations where carried out on the basis above illustrated. We refer to the world famed iron mines of the Mesabi range in Minnesota, U. S. A. Throughout the entire length of this range in recent years there have been many valuable claims taken up and today some of them yield an enormous income to those who are far-sighted enough to invest in them.

One particular case is that of a speculator who now rejoices in the sobriquet of "Iron King" of Duluth. About twelve years ago he purchased eighty acres of timber land in the iron belt above named for the sum of \$300.00. After inspecting the timber he offered to sell his property for less than he had paid for it, but no one would buy it. Some two years after he discovered that the iron oxide exposed on the land were valuable, and he sold the right to take the iron off his eighty acres to the American Steel Corporation, charging them 25 cents per ton for all the iron they took. This has netted him \$8,000,000.00. His income from this source alone is \$750.00 per day.

Almost due north some 1000 miles from this Mesabi range lies an immense deposit of iron oxide, the property of the Edmonton Coal and Iron Company of Edmonton. It is located near Edmonton in Northern Alberta not far from the Canadian Northern Railroad and close to the route of the Great Trans-Pacific besides which it is within eight miles of the Saskatchewan river which is navigable, and is connected by wagon roads to Edmonton.

Amidst other experts, Mr. Wm. Blakemore, member of Institute of Mining Engineers, England, has reported on this valuable property. He says that in his opinion the company has in this case a "most valuable asset and easily and quickly realizable, as it is more than likely from the character and occurrence of the deposit that the iron ore will come from a stratified rock below which could be disclosed by boring."

Alluding to a proposed expenditure of \$10,000.00 he adds "Having had thirty years experience in locating and working various iron deposits, I have no hesitation in saying that this is available property and one which will justify the expenditure recommended."

The mineral deposits he finds by analysis consists of 45.2 per cent of metallic iron from surface or sand as he further says, not only could it be further sand, not only could it be used to produce an excellent paint oxide for which a market could readily be found, but it could also be used in combination with other ores or smelting and iron and steel manufacture, similar to that so successfully smelted at the Red River ranges, Quebec province for many years.

Small wonder then that of late this valuable and immense property has created such a stir among mining circles in various parts, not only of this country but elsewhere.

No calomel, no cascara, no griping pain, in

Abbey's Effervescent Salt

Just crystallized fruit juices. Pleasant to take. Nature's tonic-laxative. A morning glass puts stomach, liver and bowels right for the whole day.

At all druggists, 25¢ and 50¢ a bottle.

REVILLON BROTHERS LIMITED.

Twice a year we take stock, and in preparation of that event, which takes place in February, we have our Semi-Annual CLEARING SALE. All small pieces, short ends, odd and broken lines are placed on sale at from 20 to 50 per cent. discount.

Among our SPECIAL BARGAINS for this Sale
is a large quantity of

MEN'S ODD UNDERWEAR

In wool and fleece-lined cotton. This will all go at 25 per cent. discount.

From among our MEN'S SUITS

We have picked out 50, all good quality and style, and to make them leaders have cut them 20 to 50 per cent. each. They are certainly bargains, and it will pay you to take advantage of them.

This is the time to buy

MEN'S FUR COATS

We have them from \$18.00 up, and have the greatest snaps in Coon Coats ever offered in Edmonton.

RADICAL REDUCTIONS

Is without doubt the best in Alberta, and we will be glad to show you that our prices are right and that we can save you money on all your purchases.

Yours for business,

REVILLON BROTHERS, LIMITED.

We Paid \$100,000

For Liquozone, Yet We Give You a 50c. Bottle Free.

We paid \$100,000 for the American rights to Liquozone; the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We cured all kinds of germ diseases with it—thousands of the most difficult cases obtainable. We proved that in germ trouble it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Test it as we did; see what it does. Then you will use it always, as we do, and as millions of others do. You will use it, not only to get well, but to keep well. And it will save nearly all of your sickness.

Kills Inside Germs.

Liquozone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a new food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it can-

not kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Liquozone its worth to humanity. And that worth is so great that we have spent over a million dollars to supply the first bottle free to each sick one we learned of.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma—Asthma—Asthma
Blood Poisons—Bright's Disease—

Women's Diseases
All diseases that begin with fever—all infections—
inflammation—all catarrh—all contagious diseases—all
the results of germ trouble.
In nervous debility Liquozone acts as a violent
stimulant, uncomplicated by what no drugs can do.

50c. Bottle Free.

If you need Liquozone and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. and \$1.

CUT OUT THIS COUPON

for this offer may not appear again. Fill out
blanks and mail it to The Liquozone
Company, 35-36 Walpole Ave., Chicago.

My disease is—
I have never tried Liquozone, but if you
will supply me a 50c. bottle free I will take it.

Give full address—write plainly.

Any physician or hospital using Liquozone
will be gladly supplied for a test.

Will confer a favor by notifying the Office by phone or otherwise of any failure to deliver; so that explanation can be made and future failure guaranteed against.

Has repaired a repair shop 3 doors east of the Jasper House. Re-lacing elastic in boots and repairing a specialty.

EDMONTON ALTA. CANADA
POPULATION, 7,500
CITY GOVERNMENT:

Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellanay, J. H. Picard, W. A. Griesbach.
Conveniences:—Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, J. H. Morris, Secretary, F. F. Tims.
Immigration Officer:—C. W. Sutter.
Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7:45 and 15:30. Arrives from Strathcona 9:15 and 16:50.

LOCAL

—Train on time.

—The city council meets to night.

—August Genitz proposes establishing a new brewery at Wetaakiwin.

—A. Driscoll D. L. S. came in on Tuesday from his camp. His party are engaged running the 17th base line west to the district boundary.

—Edmonton and Strathcona play the third game in the series for the Peterson cup on the Strathcona rink to-night.

—J. E. Bull western manager of the Bell Telephone system came up from Leduc on Tuesday evening. The company have about completed installing a long toll office there in connection with their long distance line.

—The staff of the Edmonton Protestant Public school district consists of twenty teachers, seventeen in the public and three in the high school. The pupils enrolled number 1085. Two caretakers are employed to look after the school building.

—J. H. Macdonald of the Strathcona Plaindealer returned on Monday from attending the meeting of the Alberta newspaper men at Calgary. Representatives of the press from all parts of the district were present and a very successful and enjoyable time was spent. Calgary entertained the visitors royally and the C. P. R. gave them a trip to Banff on Saturday. From Banff they drove to the large coal mines of the C. P. R. at Bankhead.

—Rev. C. H. Huestis gave the fourth of his series of lectures in McDougall church last evening. The attendance was very good. The theme of the lecture was the preparation of the Sunday School lesson by the teacher. Four points were emphasized by the lecturer. The principles underlying religious education were the same as those underlying all education. The teacher must secure a grasp of the subject matter of the lesson by putting himself in the place of the writer and exercising imagination. The child must be known and the teacher must know himself.

—H. L. Williams manager for the F. & G. Lake Oil Co. came in from Morinville Monday and brings excellent reports from the seat of drilling operations. The cold weather has retarded drilling but a depth of 18,000 feet has been reached and oil bearing strata has been touched. The conclusions deduced from this work so far done are tersely stated by Mr. Williams as follows:—There is no possible doubt of the existence of great oil deposits in the Morinville field. We are getting enough oil to prove to my satisfaction the correctness of our original theory. We will push the work of development as rapidly as possible and before long will be able to convince the most skeptical of the richness of the field.

PERSONAL

D. H. Lent of Mewassin was in the city yesterday.

Principal Riddell of Alberta college is expected to return from Winnipeg the latter part of the week.

Miss McQueen of Vancouver who has been visiting Rev. and Mrs. D. G. McQueen went to Wetaakiwin last week.

H. Featherstonehough G. T. P. surveyor came in Tuesday from Sturgeon Lake where his party have been engaged in survey work for some time.

HIGH SCHOOL LITERARY

Another meeting of the High School Literary Society was held in the All Saints' School room yesterday afternoon. This meeting including a debate and a fine programme, was in every way a success. After the usual reading and adoption of (E) motions as the programme began.

The first item was an instrumental solo by Miss Ruby Beals.

The next was a recitation by Miss Katip George which was of a humorous nature and was indeed very artistically delivered.

Then followed a quartette "Annid Laurie" by the Misses Grayce, Wooster, Stuart and Fraser. Miss J. Potter played the accompaniment on the piano.

Then came a very fine recitation by Miss Wooster "The Pied Piper of Hamelin" by Browning.

The last item was "The Chariot Race" played by Miss Ada Brewster, which met with enthusiastic applause.

Then proceeded the debate. The question was: "Resolved that a man who smokes is a greater evil than a woman of fashion."

The affirmative was taken by Miss Anna Oliver and Miss Hazel Walker and the negative by Misses Harry Bragg and Hugh Carter.

Both sides entered into the debate with great enthusiasm, the boys ridiculing the "woman of fashion" and the girls earnestly denouncing the evil of the habit of smoking.

After the debate closed a few remarks were made by the critic, Mr. Johnston, and then the judge Mr. Ellis gave his decision in favor of the negative.

With the singing of the National Anthem the meeting closed.
